1. OBJECTIVE :

- (1) To sensitize the target group about the causes of disabilities and preventive measures to be adopted before and after pregnancies.
- (2) To detect early childhood disabilities and refer such cases to the nearest health institution so that disability is prevented and minimized.
- (3) To get the identified persons examined from the medical authorities and issue them disability certificate.
- (4) To generate an accurate data of persons with disabilities for the formulation of need based plans, policies, strategies and programmes that ensure equal opportunities for them.

2. PREVENTION OF DISABILITIES :

- (1) The main objectives of the Integrated Child Development Services program of the Women and Child Ministry include:—
 - (a) laying the foundation for proper psychological, physical and social development of the child;
 - (b) reducing the incidence of mortality, morbidity, malnutrition and school dropout;
 - (c) enhancing the capability of the mother to look after the normal health and nutritional needs of the child through proper nutrition and health education.

- (2) As part of the above duties, under this scheme, the Aaganwari worker (AWW) would be expected to play a key role that would also help in clearly enunciating the issue of disability so as to assist in prevention and early detection amongst children.
- (3) The Aaganwari Workers will collect data of newly wedded couples from the concerned Gram Panchyat on quarterly basis, maintain a folder and sensitize them :—
 - (a) on the causes of disabilities;
 - (b) preventive measures to be adopted before and after pregnancies;

The e-pehchan software will be modified so that the data of screened cases as received from ICDS functionaries are updated on quarterly basis.

5. COMPOSITE MEDICAL CAMPS :

- (1) Having comprehensively covered large numbers and areas for coverage of persons with disabilities through medical camps during the year 2016, it is expected that future screening, testing and issuance of Disability cards in the State would be an incremental process. This can easily be covered through the regular Medical Board process institutionalized by the Health department. To ensure that the gains made earlier are not lost, composite medical camps will be held in each district as many times during the year as required.
- (2) The camps preferably will be organized in two phases. In the first camp, the process of identification, issue of certificate shall be made and in the 2nd camp the assistive devices will be provided as per the assessment made for each beneficiary in the 1st Camp. - (5) A calendar for the camps will be approved by the above committee so as to ensure that the camps start by October and first phase may be completed by the end of December. The preparatory work will be completed well in advance so that camps are conducted

- properly. Special focus should be given to organize camps at central locations with better connectivity so that maximum number of PwDs can reach the camp sites. In case of larger and inaccessible areas more than one camp may also be organized.
- (6) The calendar of camps should be based on the availability of medical and rehabilitation personnel for certification of each disability in the camps. The Deputy Commissioner in consultation with the Chief Medical Officer will ensure this. If required, he may hire/requisition private specialists/agencies to assist such certifications. Honorarium for the same will be provided.
 - (7) Adequate publicity should be made sufficiently in advance at villages and Panchayat level through local medias. The Aaganwari Workers will ensure that all the persons identified by her attend the composite medical camp on the fixed dates and places. Services of all grass-root functionaries should be utilized in respect of their area so that maximum numbers of PwDs report for registration in the camp.
 - (8) Services of rehabilitation professionals working in any government supported program and/or institution and of NGOs should be utilized for the camps. Private- Public- People partnership may be encouraged to hold such camps in an effective manner or funds can be utilized for such activities wherever possible.
 - (9) Persons with severe or intellectual disabilities including autism; multiple disability and other such categories are often the one of the most miss the benefit of certification as they themselves cannot reach the camps.
